

Thank you for buying Lumina Art Gallery!

Lumina Art Gallery – Modern VR Environment Pack is a high-quality 3D environment designed for Unity, crafted to deliver an immersive and realistic virtual exhibition experience. This environment features a spacious, minimalist gallery with clean white architecture, polished reflective floors, and a soft illuminated grid ceiling that enhances the visual atmosphere. The scene includes multiple framed artworks (abstract, portraits, and modern compositions), structural columns, and a contemporary bench, creating a refined museum-like space. Fully optimized for VR and real-time applications, this asset ensures smooth performance while maintaining high visual quality. The modular-friendly layout allows easy customization—replace artworks, adjust lighting, or expand the gallery to fit your project. Whether you're building a virtual museum, an interactive experience, or a cinematic environment, Lumina Art Gallery provides a versatile and elegant foundation.

Key Features:

- High-quality modern art gallery environment
- Fully optimized for VR (smooth performance)
- Minimalist architecture with clean lighting
- Multiple artworks included (easy to replace)
